

# **AFLAC Open Enrollment**

Remember that AFLAC policies pay cash benefits back to you and your family when illnesses and injuries happen.

If you do not currently have AFLAC policies I would suggest meeting with me to take a look at them with an explanation about the coverage. Making good informed decision about these coverage's could benefit you and your family.

If you currently have coverage's with AFLAC and would like to discuss them or look at adding an additional plan please meet with me.

Policies:

**Accident Coverage:** Helps provide a financial cushion when an accident occurs.

**Short Term Disability:** Helps with the loss of pay resulting from a sickness or off-the-job injury through monthly benefits.

**Cancer Coverage:** Helps with the medical and non-medical expenses relating to cancer treatment.

**Hospital Plan:** Covers confinement in a hospital, surgery benefits and much more.

Your employer will provide payroll deduction and that gets you payroll rates. All plans are guaranteed renewable for life and portable. If you should decide to retire or leave and work somewhere else you get to keep the same rates.
